- o 3/14 Tour
Sponsored by: ECE

april

- o 4/11 Virtual Seminar

may

- o 5/9 IIDA Awards Banquet

june

- o 6/13 Golf Tournament

february IES event

LED Lighting – New Product Showcase, on Tuesday, February, 14th. 10:00 a.m. – 2:00 p.m at the U of U Arts & Architecture Building, Bailey Exhibit Center. Please join us for an informative and educational exhibit and take the opportunity to discuss and view LED technology products on display. Led sources can help create a custom environment, big visual impact, low energy use, low maintenance, digital control possibilities and will transform ordinary spaces. LED technology lends itself to interior and exterior type applications with a wide range of products leaving the designer/architect to create what he or she can only imagine. Below is a map for driving and parking instructions. Please be sure to invite architects, designers, specifiers, contractors or friends that might be interested.
